

**PORT ALMA WIND FARM: FIRST SHIPMENT OF  
TURBINE PARTS ARRIVES AT WINDSOR PORT**

**Chatham-Kent (Ontario), April 16 2008** – Kruger Energy Port Alma (KEPA) today announced that the first shipment of turbine parts arrived at the Port of Windsor on Thursday, April 10, 2008. Subsequent shipments are scheduled to arrive at the Port of Windsor over a period of several months.

The 101.2-MW wind farm is being built in the Municipality of Chatham-Kent, approximately 90 kilometres from the port of Windsor. The erection of the 44 wind turbines is scheduled to begin on April 21<sup>st</sup>, after the turbine parts arrive at the KEPA site.

“With the blades alone measuring 45 metres in length, a detailed ground transportation route and schedule have been prepared and will be carried out with the assistance of the Ontario Provincial Police (OPP),” said Jean Roy, Vice President, Operations, Kruger Energy. “Ground transportation to the KEPA site will start in the upcoming weeks and will continue through to early fall this year.”

“We are very pleased with the status of the project. The construction is progressing according to schedule and the entire team is excited as we enter into the final stages of construction,” commented Jacques Gauthier, Senior Vice-President and COO, Kruger Energy.

Kruger Energy specializes in the development and operation of green and renewable energy power plants. In the fall of 2008, the Company will commission one of the largest wind farms in Canada, in the municipality of Chatham-Kent, Ontario. This will bring to 10 the number of production sites under Kruger Energy management, for a total installed capacity of 300 MW from four types of energy: hydro, wind, biomass and biogas. Kruger Energy is a business unit of Kruger Inc.: [www.kruger.com](http://www.kruger.com).
